

ACETAMINOPHEN (TYLENOL)

***Please be aware of the recent change in all infant acetaminophen products. The “old” formulation was 80mg/0.8ml and the “new” drops are 160mg/5ml. The new enclosed syringe is designed to provide 1.25ml (40mg) increments.

*Note that preference is given to the weight of the child. Ages are provided to help estimate the dose if current weight is unknown.
